Essential Features: 1. Basic Text Formatting: o Bold, Italic, Underline, Strikethrough – Already added o Font family – Already added but need to add more fonts o font size selection- Decrease Font Size & Increase Font Size needs to be added o Text color – needs to be added o background color– needs to be added 2. Paragraph & Alignment: o Left, center, right, and justify alignment– Already added o Line spacing options– needs to be added o Paragraph Spacing: Customize spacing before and after paragraphs. – needs to be added o Letter Spacing options– needs to be added o Text Position– needs to be added o Indentation (increase/decrease indent) – Already added o Page Breaks: Option to insert manual page breaks to control the layout of the document– needs to be added o TAB Key Functionality: Ensure that pressing the TAB key inserts a Tab character (\t), not spaces.Optionally, allow the editor to convert the Tab character into a configurable number of spaces (e.g., 4 spaces) based on user preferences. Preserve Tab characters or configured spaces when saving and loading content. On save, ensure that Tab characters (\t) or the equivalent spaces (e.g., 4 spaces) are preserved in the saved content. When loading saved content, restore and display Tab characters or spaces as they were originally inserted. o Space Handling: Ensure spaces are preserved exactly as entered (e.g., leading/trailing spaces, multiple spaces between words). Allow users to configure how many spaces are used for indentation if they prefer using spaces over tabs (e.g., 2, 4, or 8 spaces). o 3. Lists & Structure: o Ordered & unordered lists– Already added but need to add more lists 4. Tables & Media: o Insert & format tables– needs to be added o Add images with resizing, crop & alignment.Allow users to insert images into the document and provide basic image editing options (resize, crop, and alignment). – Already added Add Image but need to add resizing & alignment o Embed videos & links– Already added 5. Margins & Paper Layout: o Margins: Allow users to adjust top, bottom, left, and right margins. Provide options for standard margins (e.g., 1 inch or 2.54 cm), or let users enter custom values. – needs to be added o Paper Size: Support various paper sizes (A4, Letter, Legal, A3,etc.). Allow users to select paper size during document creation or export. – needs to be added o Page Layout: Option for switching between Portrait (vertical) and Landscape (horizontal) orientation for the document. – needs to be added 6. Undo & Redo: o Ability to reverse or repeat the last action– needs to be added
